VIOS Cloud Platform As A Service

The challenge in managing humans in need is the delivering goods and services in a controlled environment, in order to facilitate their stay and their successful integration into society.

The Online Platform **VIOS** cloud, combined with **my VIOS**, is the only solution.

For the first time, everyone who wishes to receive benefits or offer their services "meet" on one database.

A fully customized solution able to receive and manage any social benefit

«Organizing the delivery of goods & services
and the efficient implementation of every procedure»
