

my-VIOS

born to be unbreakable

Secure Access

Access with owner's personal password

Encryption

100% portable and encrypted database

Certified & Unbreakable

VIOS is a certified product with an unbreakable database

my-VIOS & your SERVER

Most ICT Professionals do NOT bother to secure information but only to distribute them.

**We are here with only one concern:
to achieve the maximum security level for data!**

my-VIOS is here to guarantee that when your data are «out» of the server, the only person with access to them will be you or the individual that you personally have authorised
