

my - Valid Information Open Secure
 my VIOS CV, a new concept which disrupts current credential verification practices, presenting a globally unique innovation, via which **the individual can collect ALL their credentials & certifications from ANY different educational institution/entity**, serving as a single point of reference for the personal credentials for each individual.

What is it?

my-VIOS is the FIRST VALID Digital CV, in the form of a USB card, owned by the individual.
 A globally unique solution introducing integrity by ensuring individual credential validity and reliability.

a simple idea

How it works?

Data input is restricted to my-VIOS CV card Provider (universities, HR Management Companies) ensuring my-VIOS card data validity and therefore information reliability.

The Problem in Numbers

In a recent CareerBuilder.com survey, nearly 60 % of hiring managers reported **catching fabrications on job applicants resumes!**

The CEO of Bausch & Lomb from 2001-08 **faked an MBA** from a business school he didn't graduate from !

Replacing an employee can cost anywhere from \$ 3.500 to \$ 40.000!

The CEO of Yahoo was forced to step down in 2012 after it was revealed that **his academic credentials did not add up !**

Out of 4,000 survey respondents said **they uncovered a lie or misrepresentation on a candidate's resume or job application during the screening process!**

The dean of admissions at the Massachusetts Institute of Technology, admitted in 2007 that she had claimed degrees she hadn't earned and in fact **had never graduated from college !**

There are **3,300 unrecognized universities worldwide**, many of them **selling degrees** at all levels to anyone willing to pay the price, and that more than 50,000 Ph.D.s are purchased from diploma mills every year !
